Bank at Muleshoe

New Town in Irrigated Valley is Coming to the Front.

Muleshoe, Tex. Aug. 8, 1914.—Last month marked another stage of progress for the new town of Muleshoe in Bailey County, when several prominent citizens of Muleshoe and Farwell organized the Blackwater State Bank of Muleshoe.

At the first meeting of the directors the following officers were elected: C. W. Harrison, president; M. P. Smith and J. A. Oden, vice presidents; Geo. P. Kuykendall, Cashier. The parties interested in the new enterprise are all gentlemen of the highest standing in their respective communities and their financial rating is unquestioned.

There are some seventy irrigation wells within a ten mile radius of muleshoe and the fine crops that are now in evidence are sufficient to banish all doubts concerning the wonderful farming, dairying and truck growing possibilities of the Blackwater Valley.

Mr. Dempster has just completed a big well two miles north of the Y. L. headquarters. The new gusher will flow about 1000 gallons per minute. Coldren Brothers, who are townsite agents and general land agents are spending thousands of dollars improving their property. They have twelve big wells in operation. D. K. Smith recently of Omaha, has a section of well improved land stocked with good stock and has 80 acres in cultivation under ditch.

P. Pelletier, the boss carpenter, has just returned from Muleshoe where he completed an 8 room bungalow for D. K. Smith which is strictly modern with electric lights, hot air heating plant and water connections. He says Muleshoe is bound to come to the front.
